

The **Plegium® Smart Pepper Spray** is the world's most advanced personal safety product.

It's a pepper spray that connects to your phone.

When you fire the pepper spray, your phone immediately and automatically **sends a text message with your location** to your emergency contacts.

On top of that, your emergency contacts receive an **automatic phone call** informing them that you are in danger.

The Smart Pepper Spray is equipped with a 130 dB siren and strobe LEDs and has a **4-year, no-charging battery life!**

The location text messages and phone calls are enabled by the **Plegium app and cost \$1.99 / month** (in-app purchase). Download the Plegium app on the App Store or Google Play!

Pepper Spray

- Maximum strength (1.33% major capsaicinoids)
- 10 foot range
- Up to 10 shots
- 0.5 oz pepper spray content (same as most popular standalone pepper sprays).

Location Text Messages

- Sent automatically when you fire the Smart Pepper Spray
- Enabled by the Plegium® app
- Add up to 5 emergency contacts
- The text messages contain a Google Maps link showing your location

Phone Calls

- Made automatically when you fire the Smart Pepper Spray
- Enabled by the Plegium® app
- Add up to 5 emergency contacts
- A voice informs your emergency contacts that you are in danger and that they have received a text message with your location

Siren

- 130 dB, louder than most standalone personal alarms
- Tuned for maximum penetration
- Activates automatically when you fire the Smart Pepper Spray

Strobe LEDs

- Triple strobe LEDs light up when you fire the Smart Pepper Spray, helping you aim in the dark
- Strobe-blinking (19 times-per-second) disorients the attacker

*** All functions activate simultaneously when you fire the Smart Pepper Spray

*** 4-year, no-charging battery life (!)

*** Flip-top safety lid prevents accidental triggering

*** Optimized grip prevents index finger from covering the spray nozzle

*** All Plegium® products are designed and Made in Sweden. No other pepper spray brand comes close to Plegium products in terms of features, usability and build quality.
